correlation energy 319, 345, 364
Coulomb term 235

delocalization energy 384
density, matrix 370
--, Dirac-Fock 46, 193
-, function 41
--, spinless 42
-, functional theory 49
determinantal function 44, 52
diagrammatic technique 364
dipole moment 332

Dirac, delta function 7
-, equation 95, 289
-, Fock method 290
direct product 26
-, irreducible components 29
Dunham potential 119
Dyson equation 378

electron affinity 251, 322,377
-, configuration 43
--, free atom 52
-, correlation 345
-, density 328
-, term 54
electronic energy 110, 194, 205, 228, 237, 285, 359, 361
electrostatic potential 334
equilibrium constant 126
Euler matrix 81
exchange correlation 50, 235
excitation energy 242, 321,322

Fermi golden rule 379
Fock matrix 194
force constant 114, 120, 139

Green function 376
-, one-particle 381
